Hospital Haste

Hospital Haste is a challenging Time Management Casual Game, in which you take the role of Sally, a caring young nurse. Sally takes care of the patients, ensuring that all of those coming to the hospital get diagnosis, right prescriptions and the treatment appropriate for their different ailments and conditions. And all of this on time! While taking care of the patients, Sally helps to develop several unique hospitals from run-down state to prospering facilities.

Story:

Meet Sally, a young graduate of a medical academy, always dreaming about opening her own clinic. She is just at the start of the road and need some experience to make her dreams come true. After meeting one of her professors Sally is offered an intership in Professor's clinic and instantly accepts it. This is how it all begins, and Sally follows to a variety of clinics which need her help, gaining experience, continuing her intership in different unique hospitals around the world. Perhaps there, when she finely finishes her intership, she will be able to start the clinic of her dreams?

Gameplay:

As Sally, you will deliver diagnosis, prescriptions and appropriate treatment to all the patients in your hospital. Make sure you do this on time so the patients stay healthy enough to be cured or they will be moved to another hospital! Every patient cured will give you funds to improve and renovate the hospital and some additional *heart tips* to upgrade your own clinic. Prepare for 50 challenging shifts in 5 unique hospitals around the world, a variety of interesting illnesses to cure and many nice and amiable patients to recover!
